

## Lead Free Solder Paste Series for High Performance SMT Applications

Superior solder paste family, especially developed for demanding wide SMT process window application

Microbond® SMT712 No Clean Solder Pastes Series is a state of the art lead free solder paste formulation that promotes outstanding printing performance.

For demanding complicated electronics applications such as for smartphones or hybrid electronics, the Halogen free formulation of the flux is active enough to provide excellent wetting results under Air atmosphere.

# Microbond® SMT712

## For SMT Applications

### Key Features

- Excellent wetting under air
- Low voiding
- High volume print capability
- Anti-solder bead
- Transparent residue
- Improves head on pillow issue

### Standard Product Specification

SMT712 Solder Paste
No Clean classification
Halogen Free
Solder Powder Type 4 & 5
ROLO
SAC305 Alloy
